

MENTORING PROGRAM

UNI EQUAL OPPORTUNITIES MENTORING PROGRAM 2013 MORE VOICES, MORE PROJECTS, MORE EQUALITY

UNI Equal Opportunities Department is launching a Mentoring Program for women across UNI Global Union's four regions.

The program seeks to develop the engagement of more young women trade unionists within trade union work at the local, national and international level.

How do we do it?

By pairing less experienced women with more experienced women, where the mentor can share their experiences with their mentee, we can empower and integrate a new generation of women trade union leaders who will in turn be their trainers in the future

When does it start?

The launch of the program will start in Europe during the UNI Europa Youth meeting, in which members of the UNI Europa Women's Committee will begin to form pairs.

Who can be mentors?

Proactive and experienced women trade union leaders in labour movement.

Women members of the decision-making bodies in UNI Global Union regions, sector and groups.

Who can be a mentee?

Women unionists under 35 who are interested in participating in the program.

They will have to find their own mentor.

They must have some experience in the union work and structure.

The mentor and mentee must belong to the same country / area.
